## Global Risk Consultants Expands U.S. Property Risk Engineering Capabilities with Acquisition of Aon U.S. Field Services

Woodbridge, N.J. Global Risk Consultants Corp. (GRC), the worldwide leader in independent property risk engineering and a TÜV SÜD company, today announced the acquisition of the U.S. Field Services business of Aon’s Property Risk Control Practice from Aon. The move represents a powerful boost to GRC’s engineering bench at a time when demand for independent risk insight is rising.

In a market where operational risks evolve faster than ever and insurers demand sharper, cleaner risk data, GRC is investing in exactly what matters: added bandwidth to support a fast-growing client base.

Aon’s U.S. Field Services brings a team of 20 U.S.-based engineers specializing in pre-loss property risk assessments. Their work naturally aligns with GRC’s mission to help organizations identify and mitigate risk. The move gives GRC extra bandwidth, enhances scheduling flexibility, and delivers the ability to support a growing client base without missing a beat.

### **Greg Bates, President & CEO, Global Risk Consultants said:**

“We’re thrilled to welcome the Aon U.S. Field Services team and their clients to Global Risk Consultants. They bring long-standing client relationships and strengthen our position as the leading independent provider of property risk engineering. We’re excited about the opportunities ahead and will continue to evaluate future investments that expand our capabilities and deepen the value we provide.”

### **Jan de Leon, CEO, TÜV SÜD Americas said:**

“This acquisition strengthens TÜV SÜD by deepening our technical bench in one of the most critical areas facing our clients today—property risk and loss prevention. The move also reinforces our role as a trusted partner in enabling safety, reliability, and sustainable growth.”

## About Global Risk Consultants

Global Risk Consultants Corp. (GRC) is the leading global provider of unbundled property risk engineering services. GRC pioneered unbundled loss control, independent risk assessments not tied to insurance or underwriting. With GRC, companies own their data and get a holistic view of their risk profiles, empowering them to retain risk, shop for appropriate insurance coverage, and negotiate premiums with confidence. GRC provides first-rate, cost-effective services such as Fire Protection Engineering, Boiler & Machinery Engineering, Infrared Thermography, Electrical Protection Services, Natural Hazard Analysis, and more.

## About TÜV SÜD

TÜV SÜD is a leading quality, safety, and sustainability solutions provider that specializes in testing, inspection, auditing, certification, training, and knowledge services. Since 1866, the company has remained committed to its founding principle of protecting people, property and the environment from technology-related risks. Headquartered in Munich, Germany, TÜV SÜD is represented in more than 1,000 locations worldwide. TÜV SÜD operates globally with a team of more than 30,000 multi-disciplinary experts recognized as specialists in their respective fields. By combining impartial expertise with invaluable insights, the company adds tangible value to businesses, consumers, and the environment. The aim of TÜV SÜD is to support customers with a comprehensive suite of services worldwide to increase efficiency, reduce costs and manage risk.
