

Information about online exams

Information about exam assessment

Selected answer

Green = question has been answered
Blue = question currently being displayed
Orange = question on watch list
White = question not answered yet

Logging in

- You log in with an event and access code. These codes will be provided to you with the information when you can start the exam.

Beginning the exam

- After logging in, read the introduction to the exam.
- The exam begins as soon as you click on „Start exam“.
- Do not do this until you are instructed to do so by the exam supervisor.
- When you begin the exam, the exam time will begin. You may not pause the exam and continue it later.
- Once the exam has started, the remaining time for you to complete the exam is displayed in the top-left corner of the screen.

Unanswered questions

- Questions that have not yet been answered are shown in white in the list.

Answered questions

- Once you have answered a question and clicked on „Save and continue“, the answered question is shown in green in the list. You can return to these questions later to edit your answer (see „Returning to questions“).

Watch list

- You can put any questions that you don't want to answer immediately or that you want to return to later on your watch list. These questions are shown in orange in the list.

Returning to questions

- At any point before the exam ends, you can return to any question in the exam to change your answer.

Ending the exam

- If you click on „End exam“, a confirmation prompt will appear. This prompt asks you to confirm whether you want to end the exam. This message will also tell you if you have any unanswered questions or questions on your watch list.
- Once the exam time runs out, the exam automatically ends.
- You will then see your result.
