

## List of Activities under flexible Accreditation

**Name of the entity: TÜV SÜD Czech s.r.o.**

**Name of the facility: Testing Laboratory**

**CAB number: 1107**

**Certificate of Accreditation No.: 331/2025**

**Scope of Accreditation: Testing laboratory – ČSN EN ISO/IEC 17025:2018**

**Updated on: March 13, 2026**

### Testing laboratory location:

1. **NOV** Novodvorská 994, 142 21 Praha 4
2. **UHE** Úhelnice 41, 294 06 Úhelnice
3. **BEZ** Uno Technology Park, Hala H1a, Bezděčín No.p. 108, 293 01 Mladá Boleslav
4. **VTP** Přílepská 1920, 252 63 Roztoky u Prahy
5. **KTG** Bílý Vrch, Bártlova 2835, 193 00 Praha 9 – Horní Počernice
6. **NYM** Za Žoskou 2506, 288 02 Nymburk

1. **NOV**

### Tests:

| Ordinal number <sup>1</sup> | Test procedure / method name   | Test procedure / method identification <sup>2</sup>   | Tested subject | Degrees of freedom <sup>3</sup> |
|-----------------------------|--|---|----------------|---------------------------------|
| 1.1*                        | Measurement of acoustic pressure level, power level weighted by various weighting functions and frequency analysis | UN No. 9, Annex 3, 4;<br>UN No. 28, Part II, Art. 14;<br>UN No. 41, Annex 3 to 5;<br>UN No. 51, Art. 6, Annex 3 to 7;<br>UN No. 59, Art. 6;<br>UN No. 63, Annex 3, 5;<br>UN No. 92, Art. 6;<br>UN No. 117, Annex 3, 4;<br>ČSN ISO 5128, Art. 3 to 11;<br>Regulation (EU) 2015/96, Annex III;<br>Regulation (EU) 1322/2014, Annex XIII;<br>Regulation (EU) 2015/208, Annex XVI;<br>Regulation (EU) 3/2014, Annex II, Part II;<br>Regulation (EU) 134/2014, Annex IX;<br>Regulation (EU) 540/2014, Annex II to VIII, Annex IX, App. 4 and 5, Annex X;<br>UN No.138, Art. 5, 6, Annex 3;<br>Regulation (EU) 2018/985, Annex II ; | Vehicle        | D                               |

## List of Activities under flexible Accreditation

| Ordinal number <sup>1</sup> | Test procedure / method name   | Test procedure / method identification <sup>2</sup>  | Tested subject          | Degrees of freedom <sup>3</sup> |
|-----------------------------|--|--|-------------------------|---------------------------------|
|                             |  | ČSN EN 1846-2+A1, Art. 5.1.1.8, 5.1.5, Annex F;<br>ČSN EN ISO 3095, Art. 6 to 8;<br>ČSN EN ISO 3381, Art. 6 to 8   |                         |                                 |
| 1.2                         | Measurement of acoustic pressure level, power level weighted by various weighting functions and frequency analysis       | UN No. 28, part I, Art. 6;<br>INMETRO Regulation No.145/2022, including NBR 7014, NBR 5535 and NBR 5536;<br>Regulation (EU) 3/2014, Annex II, Part I   | Acoustic warning device | D                               |
| 1.3*                        | Measurement of acoustic pressure level, power level weighted by various weighting functions and frequency analysis       | ČSN EN ISO 3744, Art. 6 to 10;<br>ČSN EN ISO 3746, Art. 6 to 10;<br>ČSN ISO 6395, Art. 5 to 10   | Machine                 | D                               |
| 1.4*                        | Check of the number and type of installed lighting devices and measurement of mounting dimensions and visibility angles. | UN No. 48, Art. 5, 6;<br>UN No. 53, Art. 5, 6;<br>UN No. 69, Annex 15;<br>UN No. 70, Annex 15;<br>UN No. 74, Art. 5, 6;<br>UN No. 86, Art. 5, 6;<br>Regulation (EU) 2015/208, Annex XII;<br>Regulation (EU) 3/2014, Annex IX;<br>UN No. 150, Annex 11;<br>ČSN EN 1846-2+A1, Art. 5.1.3.3 | Vehicle                 | D                               |
| 1.5*                        | Check of symbols for controls, signalling devices and indicators   | UN No. 60, Art. 5.3, 6.4;<br>UN No. 121, Art. 5;<br>Regulation (EU) 1322/2014, Annex XXVI;<br>Regulation (EU) 3/2014, Annex VIII   | Vehicle                 | D                               |
| 1.6*                        | Tests of electrical safety   | Regulation (EU) 1322/2014, Annex XXVIII;<br>UN No. 100, Art. 5, Annex 3 to 6;<br>UN No. 136, Art. 5, Annex 3 to 5;<br>Regulation (EU) 3/2014, Annex IV;<br>Regulation (EU) 2015/208, Annex XXIV;<br>UN No. 107, Annex XII  | Vehicle                 | D                               |
| 1.7*                        | Functional check of electronic systems   | UN No. 97, Art. 17 to 19, 31 to 33;<br>UN No. 116, Art. 5, 7 and 8;<br>UN No. 161, Art. 5, Annex. 6;<br>UN No. 162, Art. 5, Annex 6;<br>UN No. 163, Art. 10 to 12, Annex 6, 8;   | Vehicle                 | D                               |

## List of Activities under flexible Accreditation

| Ordinal number <sup>1</sup> | Test procedure / method name   | Test procedure / method identification <sup>2</sup>  | Tested subject                                | Degrees of freedom <sup>3</sup> |

| 1.19*                       | Strength test  | ČSN EN 131-2+A2, Art. 5.2, 5.19, 5.20;<br>ČSN EN 131-4 Art. 6.2.2, 6.2.3, 6.2.5, 6.2.5.2, 6.2.5.3, 6.2.5.4                               | Ladders, side ladders, bar stabilizers, side walls, ladders with more than one pair of hinged joints, decks, floor parts | D                               |
| 1.20*                       | Angle measurement  | ČSN EN 131-2+A2 Art. 5.10, 5.14;<br>ČSN EN 131-7 Art. 6.10   | Ladders, step ladders, platforms, three-part multi-purpose ladders in position A   | D                               |
| 1.21*                       | Permanent deformation test                                     | ČSN EN 131-2+A2 Art. 5.6.1, 5.6.2, 5.6.3, 5.8, 5.12;<br>ČSN EN 131-4 Art. 6.2.5;<br>ČSN EN 131-7 Art. 6.6, 6.11                          | Ladders, handrails/handrails<br>Double, multi-purpose ladders (safety elements and hinges)                               | D                               |
| 1.22*                       | Deflection test  | ČSN EN 131-2+A2 Art. 5.3, 5.4, 5.5;<br>ČSN EN 131-4, Annex A   | Ladders, sidewalls   | D                               |
| 1.23*                       | Torsion test   | ČSN EN 131-2+A2 Art. 5.15, 5.21;<br>ČSN EN 131-4, Annex A;<br>ČSN EN 131-7 Art. 6.2  | Ladders, rungs, steps  | D                               |
| 1.24*                       | Vertical load test   | ČSN EN 131-2+A2 Art. 5.6, 5.6.2, 5.6.3;<br>ČSN EN 131-4, Annex A;<br>ČSN EN 131-7 Art. 6.4.1   | Ladders, rungs, steps, platforms   | D                               |
| 1.25*                       | Suspension device test   | ČSN EN 131-2+A2 Art. 5.9;<br>ČSN EN 131-4, Annex A;<br>ČSN EN 131-7 Art. 6.12  | Ladders, extendable/multi-purpose ladders  | D                               |
| 1.26*                       | Torsion test   | ČSN EN 131-2+A2 Art. 5.7;<br>ČSN EN 131-4, Annex A   | Ladders, lean to ladders   | D                               |
| 1.27*                       | Durability test  | ČSN EN 131-2+A2 Art. 5.17;   | Ladders, double ladders  | D                               |
| 1.28*                       | Tensile foot test  | ČSN EN 131-2+A2 Art. 5.11;<br>ČSN EN 131-4, Annex A;<br>ČSN EN 131-7 Art. 6.14   | Ladders  | D                               |

## List of Activities under flexible Accreditation

| Ordinal number <sup>1</sup> | Test procedure / method name  | Test procedure / method identification <sup>2</sup>                           | Tested subject                                | Degrees of freedom <sup>3</sup> |
|-----------------------------|---|---|---|---------------------------------|
| 1.29*                       | Permanent deflection test   | ČSN EN 131-2+A2 Art. 5.6;<br>ČSN EN 131-4, Annex A;<br>ČSN EN 131-7 Art. 6.13 | Ladders, lower end of the sidewall            | D                               |
| 1.30*                       | Test of the ability to transition from storage position to working position | ČSN EN 131-4 Art. 6.2.7   | Ladders                                       | D                               |
| 1.31*                       | Stability test  | ČSN EN 131-4 Art. 6.2.5.4;<br>ČSN EN 131-7 Art. 6.7, 6.8                      | Ladders, ladders equipped with sprung castors | D                               |
| 1.32*                       | Flexural strength test  | ČSN EN 131-7 Art. 6.5   | Ladders, protective devices                   | D                               |
| 1.33*                       | Stiffness test  | ČSN EN 131-7 Art. 6.8   | Ladders                                       | D                               |

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the Laboratory is qualified to carry out outside the permanent laboratory premises

<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest valid edition of the specified procedure is used (including any changes)

<sup>3</sup> degrees of freedom: A – Flexibility concerning materials/products (subject of the test), B – Flexibility concerning components/parameters/characteristics, C – Flexibility concerning the performance of the method, D – Flexibility concerning the method

The laboratory can modify the test procedures with the specified degree(s) of freedom in the scope of accreditation while maintaining the principle of measurement. If no degree of freedom is specified, the laboratory cannot apply a flexible approach to the scope of accreditation for the test.

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the Laboratory is qualified to carry out outside the permanent laboratory premises

<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest valid edition of the specified procedure is used (including any changes)

<sup>3</sup> degrees of freedom: A – Flexibility concerning materials/products (subject of the test), B – Flexibility concerning components/parameters/characteristics, C – Flexibility concerning the performance of the method, D – Flexibility concerning the method  
The laboratory can modify the test procedures with the specified degree(s) of freedom in the scope of accreditation while maintaining the principle of measurement. If no degree of freedom is specified, the laboratory cannot apply a flexible approach to the scope of accreditation for the test.

<sup>4</sup> tests performed also in the premises at the address Letiště, 295 01 Mnichovo Hradiště

| Ordinal number <sup>1</sup> | Test procedure / method name  | Test procedure / method identification <sup>2</sup>   | Tested subject                     | Degrees of freedom <sup>3</sup> |
|-----------------------------|---|---|------------------------------------|---------------------------------|
| 6.1                         | Deployment tests at different temperatures, verification of functionality | VW PV 3545, Art. 5;<br>MB - A 002 005 04 99, Art. 1.4.2; Art. 2: 2019-03-12<br>VW PV 3546, Art. 5;<br>OSN No. 114, Art. 5, 6;<br>VW PV 3550, Art. 6 | Components equipped with an airbag | D                               |
| 6.2                         | Climatic resistance tests   | VW PV 1200, Art. 4  | Vehicle components                 | D                               |

<sup>1</sup> asterisk at the ordinal number identifies the tests, which the Laboratory is qualified to carry out outside the permanent laboratory premises  
<sup>2</sup> if the document identifying the test procedure is dated, only these specific procedures are used. If the document identifying the test procedure is not dated, the latest valid edition of the specified procedure is used (including any changes)

<sup>3</sup> degrees of freedom: A – Flexibility concerning materials/products (subject of the test), B – Flexibility concerning components/parameters/characteristics, C – Flexibility concerning the performance of the method, D – Flexibility concerning the method  
 The laboratory can modify the test procedures with the specified degree(s) of freedom in the scope of accreditation while maintaining the principle of measurement. If no degree of freedom is specified, the laboratory cannot apply a flexible approach to the scope of accreditation for the test.

## List of Activities under flexible Accreditation

### Accreditation for purposes of authorization/notification:

| Ordinal number | Product / Product group name  | Conformity assessment procedure / module / AVCP system | Basic requirements / harmonized technical specifications: product specifications / characteristics / technical standards <sup>1</sup> |
|----------------|---|--|---|
| <b>1*</b>      | <b>Construction products acc. to Regulation (EU) No. 305/2011</b>   |  |   |
| <b>1.1</b>     | Doors, windows, shutters, gates and related finish hardware   |  |   |
| 1.1.1          | Doors and gates (with or without corresponding fittings)<br>(For declared specific uses and/or uses subject to other specific requirements, in particular noise, energy, tightness and safety-in-use (i.e. NOT for the separation of fire/smoke sections and NOT for emergency routes))<br>(according to Commission Decision No. 1999/93/EC, as amended by 2011/246/EU)         | Regulation No.305/2011 system 3                        | ČSN EN 13241+A2   |
| <b>1.2*</b>    | <b>Waste water engineering products</b>   |  |   |
| 1.2.1          | Equipment for waste water pumping stations and pumping equipment (For all essential characteristics except for reaction to fire)<br>(according to Commission Decision 2015/1959)  | Regulation No.305/2011 system 3                        | ČSN EN 12050-1;<br>ČSN EN 12050-2;<br>ČSN EN 12050-3;<br>ČSN EN 12050-4;  |
| 1.2.2          | Septic tanks<br>Kits and elements for wastewater treatment plants and on-site treatment equipment (For all essential characteristics except for reaction to fire)<br>(according to Commission Decision 2015/1959)   | Regulation No.305/2011 system 3                        | ČSN EN 12566-1<br>Amendment A1:2005;<br>ČSN EN 12566-3+A2:2014;<br>ČSN EN 12566-6;<br>ČSN EN 12566-7;                                 |
| <b>1.3*</b>    | <b>Tubes, tanks and ancillaries, which are not in contact with water intended for human consumption</b>   |  |   |
| 1.3.1          | Tubes in installations<br>(For the transport/distribution/storage of gas/fuel intended for the supply of building heating/cooling systems, from the external storage reservoir or the last pressure reduction unit of the network to the inlet of the heating/cooling systems of the building)<br>(according to Commission Decision No. 1999/472/EC, as amended by 2001/596/EC) | Regulation No.305/2011 system 3                        | ČSN EN 10255+A1   |

- 1 for dated documents identifying essential requirements / harmonised technical specifications: product specifications / features / technical standards, only the editions cited are used; for undated documents, the latest edition of the referenced document (including any amendments) is used
- 2 asterisk at the ordinal number identifies the tests, which the Laboratory is qualified to carry out outside the permanent laboratory premises
