Other requests:

Note

The purpose of the application for certification of the factory production control (FPC) system in accordance with the applicable product standards is to describe manufacturers/vendors in terms of their responsible personnel, equipment, manufacturing processes used and other quality assurance measures. The application for certification on its own does not constitute the placing of an order. **An order is only regarded as having been placed after conclusion of a contract with the Certification Body in conjunction with the signed application for certification.**

The organisation consents to electronic saving of the data included in the application and publication of the contents of the certificates.

The information and the documents enclosed with this application are hereby confirmed to be complete and correct.

<input type="checkbox"/> Based on the information addressed in the application, we kindly ask for a relevant quotation
<input type="checkbox"/> A quotation for the inspection of the company already exists

General Terms and Conditions of Certificate Validity

Certificate validity is subject to the following terms and conditions:

1. There have been no changes in the contents of the relevant standards.
2. There have been no major changes in the conditions governing design, where design is part of the certification, the on-site manufacturing conditions in the factory or in the factory production control system.
3. There is a valid contract between the organization and the Certification Body.
4. The certificates may only be used in accordance with the terms and conditions listed on the certificates.
5. If the certification requirements are no longer fulfilled, the certificate must be declared invalid by the Certification Body. In this case, the Certification Body will request the manufacturer to return the original.
6. For use in advertising and other purposes, certificates may only be reproduced or published in whole. The text of advertising material must not conflict with the contents of the certificate.
