

Quality, Health, Safety & Environment (QHSE) Policy

TÜV SÜD Middle East, as a premium provider of quality, safety, and sustainability services, is committed to delivering services that consistently meet the expectations of our customers, as well as the legal, regulatory, and environmental requirements of both local and international authorities by employing the following principles:

- Top management ensures a unified purpose and direction for the organization by demonstrating leadership, commitment, and active involvement in developing, implementing, and managing the company's Quality & HSE Management System.
- We provide safe and healthy working conditions to prevent work-related injuries and illnesses by minimizing risks through proactive preventive measures.
- We are committed to enhancing customer satisfaction by meeting applicable requirements and continually improving our services.
- We comply with all applicable laws, regulations, policies, standards, and codes of practice related to quality, environment, and occupational health & safety. We also commit to continual improvement of Quality & HSE Management System through training, objective-setting, and performance monitoring.
- We plan, design, execute, and complete all operations in a manner that eliminates hazards, reduces OH&S risks, and minimizes environmental impact, defects, pollution, and accidents.
- We promote awareness and competence through consultation, training, and participation programs for employees and suppliers to ensure alignment with Quality & HSE performance standards.
- We set annual Quality & HSE objectives, implement action plans, measure performance, and review progress regularly to drive ongoing improvements and mitigate risks.
- We commit to preventing pollution and promoting sustainable resource use in our services, including those performed by subcontractors.
- We actively engage consultation and participation of workers, and workers' representative.

This policy will be regularly reviewed to ensure its continued suitability and effectiveness. It will be communicated across all operations and made available to relevant stakeholders.
