

Health, Safety and Environmental Policy

We, at TÜV SÜD South Asia are committed to provide a healthy and safe working condition to all our employees, associates and interested parties. We are focused on protecting the environment, by the means we operate. This shall be achieved by ensuring participation and consultation with all our employees, associates and interested parties (wherever applicable) at offices & worksites by -

- Identifying hazards and evaluating its risks and putting in place control measures to eliminate and mitigate them from operations and work activities.
- Protecting the environment by preventing pollution, minimizing waste, and conserving resources from operations and work activities.
- Complying with all applicable laws, regulations and other requirements where we operate.
- Communicating all the relevant HSE information, changes and updates to all our associates.
- Continually improving HSE so as to meet changing business and legal needs.
- Preparing for and responding to potential emergencies.

Mr Niranjan Nadkarni
