The new IATF 16949:2016 E-Learning

Course Description

What's new in IATF 16949:2016? In the e-learning you will get an overview of the new basic structure (high level structure) and the new requirements of the automobile-specific standard IATF 16949:2016, which borrows considerably from ISO 9001:2015. In the e-learning you will be led through the individual standard sections and you will get to know the new requirements step by step. In short knowledge checks, you will check your understanding at the end of each chapter.

Who will benefit

This course is specially designed for:

- Quality assurance and quality management personnel

Course Objective

You get to know the essential changes to IATF 16949:2016 and will be able to estimate what the new IATF 16949 means for your own quality management system.

Course agenda

Topics to be covered in this course include:

- Overview of the changes to IATF 16949:2016
- Introduction to the high-Level structure
- Understanding of the structure and design of the standard sections
- Challenges and opportunities for quality management

Methodology

The course employs a variety of training tools such as content-embedded assessment, simulations, and other interactive exercises to enhance instructional delivery. Easily accessible via your preferred choice of device, the course allows you to log in and learn whenever, wherever.
