ISO 22301:2012 Business Continuity Management (BCM) System Awareness E-Learning

Course Description

Disaster and Disruptions are inevitable. From a business perspective, it can mean much worse. Being able to continue your business in the face of such disruptions means you must have a plan in place. Our Business Continuity Management System awareness course will give you the highlights on putting such a plan together.

Introducing the Business Continuity Management System Awareness Course.

Who will benefit

This course is specially designed for:

- Managers, Advanced IT & Quality Professionals
- Management Representatives
- Internal Auditors
- Business Continuity Management & Team Members involved in organisation-wide BCM implementation, testing and exercising, assessment and evaluation

Course Objective

This course will help you develop an extensive body of knowledge in securing your business-critical assets and ensuring organisational resilience.

Find out how you can identify potential threats to your business and build backup systems in the event of disruptions. Minimise costs through effective resource planning and allocation, and protect your corporate brand and reputation in the long term.

This e-learning course is especially designed for learners on the go. It provides you the convenience of self-paced learning allowing you to boost your competency and add value to your career.

Course agenda

Find out how you can manage threats in high-risk or complex business environments. Learn to build a risk mitigation framework that can help your team expedite decision making even under the pressure of emergency situations.

Topics to be covered in this course include:

- Fundamentals of Business Continuity
- Determining Business Continuity Strategies
- Developing Business Continuity Plans
- Business Continuity Exercising and Testing

Methodology

The course employs a variety of training tools such as content-embedded assessment, simulations, and other interactive exercises to enhance instructional delivery. Easily accessible via your preferred choice of device, the course allows you to log in and learn whenever, wherever.

The cumulative duration of the programme is 1 hour and 15 minutes, after which you will be required to pass an assessment to receive your internationally recognised e-certificate with a unique ID.
