

Early Career Delegate

New for the 2024 Global Flow Measurement Workshop, TÜV SÜD has introduced an enhanced delegate ticket intended for anyone new to flow measurement, both in a technical and non-technical capacity, and particularly for those in the early stages of their careers.

The package includes a half-day training course, 'An Overview of Flow Metrology and Measurement', prior to the workshop. Led by TÜV SÜD Principal Consultant and Global Flow Measurement Workshop Chair, Colin Lightbody, the course will provide context and information on the topics that will be discussed in detail throughout the subsequent days at the conference.

Early career standard tickets are priced at £1600 with an early-bird rate of £1440 available until 31 July 2024.

The Workshop will be held at P&J Live, Aberdeen. The training will be held on the afternoon of 21 October prior to the technical conference on 22 - 24 October.

Further information can be found at <https://www.tuvsud.com/en-gb/gfmw>

REGISTER NOW 

The ticket includes:

- Monday half-day training course (21 October, PM)
 - The Basics of Fluid Flow - An introduction to the basic theory of fluid flow and measurement technology
 - Traditional Flow Measurement Technology - A description of flow measurement techniques that are well established in the industry
 - Modern Flow Measurement Technology - A description of modern or developing flow measurement technologies
 - Measurement Uncertainty - A description of the basic theory of measurement uncertainty
- Full conference and exhibition access
- Social event at the OGV Taproom
- Gala dinner
- Lunch and refreshments across all days

Tickets are limited, and so we request that only those who have not previously completed any TÜV SÜD flow-related training take advantage of this rate.
