Communications Support Systems Attestation Certificate

Certificate No: BAPT ATT2100 i02

Certificate Holder
Roscom Ltd
Bateman Street
Derby
DE23 8JQ
United Kingdom

Product
Match and Compare (MaC) is the major component of Roscom 'Osprey' – Forensic Revenue Event and Call Generation. This solution is used for Revenue Assurance and Regulatory Compliance and is a standalone end-to-end test system for telecommunications networks. MaC performs tests based on subscriber activities. Results of this interaction with the network are compared to the results reported from the network itself and used to perform comparisons on metering accuracy, data reconciliation, rating and billing verification and quality of service.

This certifies that the above product has been found to comply with the specified standard.

Assessment Standard BAPT 621 Issue 7 – Code of Practice for the design and supply of communications support systems

A handwritten signature in black ink that reads 'T. J. Twynam'.

Date: 11 October 2021 (Tom Twynam) This Certificate expires on 2024-12-31

This Certificate has been issued by in accordance with the Certification Regulations of TÜV SÜD BAPT. The holder of this certificate is authorised to use the TÜV SÜD BAPT Mark.
