Marine Equipment Directive (2014/90/EU) Notified Body Services

TUV SUD BABT is the certification body of TÜV SÜD and is a Notified Body under the Marine Equipment Directive 2014/90/EU (MED) regulated by the UK's Maritime and Coastguard Agency.

Products Scope

TUV SUD BABT is a Notified Body for carrying out conformity assessment procedures for Modules B, D, E, F and G under the Marine Equipment Directive. The scope of appointment covers Annex A.1/4 (Navigation Equipment), A.1/5 (Radio-communication Equipment), A1.1 (some Lifesaving appliances) and A1.6 (Colreg). If your type of equipment is not listed but is covered by any of these Annexes please contact us and we may be able to assist further.

TUV SUD BABT is also a Nominated UK Body for equipment listed in Annex A.2 of the directive, where no standards are yet published. All relevant application forms and guidance documents for MED approval (Ships Wheel Mark) can be downloaded [here](#)

Telecommunications Certification Body (TCB) (US market entry)

TUV SUD BAPT is a TCB and can issue grants on behalf of the Federal Communications Commission (FCC) for a variety of radio and telecom products.

The TUV SUD BAPT application form "[BAPT736](#)", together with the guidance document "[BAPT735](#)" can be downloaded [here](#):

Foreign Certification Body (FCB) (Canadian market entry)

TUV SUD BAPT is an FCB and can issue grants on behalf of Innovation, Science and Economic Development Canada for a variety of radio and telecom products.

The TUV SUD BAPT application form "[BAPT756](#)" together with the "[BAPT755](#)" Guidance document can be downloaded [here](#):

Registered Foreign Conformity Assessment Body (RFCAB) (Japan market entry)

TUV SUD BAPT is an RFCAB and can issue grants for Japanese market entry. See the following link for our current scope: Japan Radio Approval

The "[BAPT752](#)" Application form together with the BAPT751 guidance document can be downloaded [here](#):

Compliance Management Services

Our Compliance Management engineers offer a range of services designed to assist you with your various market entry requirements. These include:

- Compilation of Technical Construction File (TCF) for submission to the RED Notified Body (TUV SUD BAPT)
- Training for RED Risk Assessment requirements.
- Notifications to RED countries where a non harmonised frequency band is used.
- Management of TCB applications and submittal of the filing to the TCB (TUV SUD BAPT)
- Management of FCB applications and submittal of the filing to the FCB (TUV SUD BAPT)

Note that all Technical Construction Files (TCF) for RED opinions and filings for TCB or FCB approvals should be supplied in unalterable electronic format.

Note: All Compliance Management Services are offered through TÜV SÜD.
