

Acceptance of WiFi 6E

Throughout 2022 and through the first few months of 2023, many regulators have now announced their acceptance of WiFi 6E, meaning manufacturers who have included or are looking to include this technology in their products, will now be able to sell more globally. Aside from Europe, USA and Canada, these countries include but are not limited to:

- Bahrain
- China
- Colombia
- Dominican Republic
- Hong Kong
- Malaysia
- Mauritius
- Morocco
- Mexico
- Qatar
- Zambia
