Product Certification Scheme

Ensure the safety, quality and performance of your products

Guarantee the quality of your products

TÜV SÜD (Malaysia) assists industry by providing certification of products through the TÜV SÜD (Malaysia) Product Certification Scheme. The Product Certification is an activity to determine that a product meets relevant standards and fulfils relevant requirements that helps to safeguard the public's interest by ensuring that the products are safe, reliable and durable.

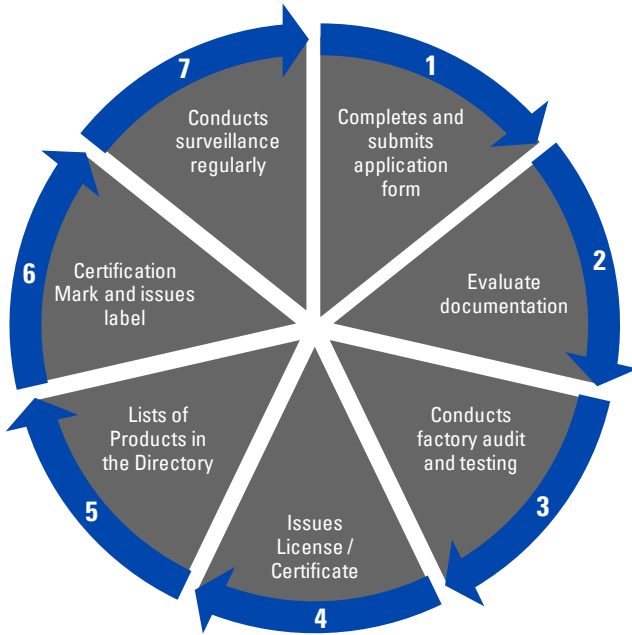

Products under regulatory authority (e.g. CIDB and SPAN) are within Product Certification Scheme of TÜV SÜD (Malaysia)'s scope and the scheme are a broad-based third-party product certification which certifies the product to national and international standards.

Only products which have met the standards and certification requirements will be issued with a TÜV SÜD (Malaysia) Product Certification License / Certificate and have the rights to bear the TÜV SÜD MY Certification Mark and TÜV SÜD MY Label. With the license, certificate, certification mark and label, your products will be accepted by government authorities and major buyers.

Products under the Product Certification Scheme provides confidence and peace of mind to consumers and at the same time enhancing product recognition. All suppliers and manufacturers capable of manufacturing products which conform to relevant standards may apply for Product Certification Scheme.

Certification process
