

2-DAY SKILLSFUTURE FOR DIGITAL WORKPLACE EXPERIENTIAL WORKSHOP (16 hours)

OVERVIEW

What are the latest technology trends that can impact you at the workplace? What is your learning style in embracing technology? What techniques and platforms are out there for you be more efficient and effective in today’s digital world?

Designed to encourage a mindset shift, the **SkillsFuture for Digital Workplace (SFDW)** program aims to develop **Learning Agility** and **Digital Confidence**.

PROGRAM OBJECTIVES

- Understand basic cybersecurity hygiene, different cybersecurity risks and what to do about them
- Learn to collaborate using technology and have hands-on experience with digital tools that can help at work and at home
- Discover more about technology trends, what the emerging technologies are and how they are used

PROGRAM OUTLINE

	Program Title	Brief Description
Session 1	E-Scape Room “Learn to be Safe”	This exciting experience provides you a hands-on and tactile way to learn about cybersecurity.
