

Automotive Quality Management IATF 16949

The IATF 16949 standard was published in October 2016, replacing the most frequently used global standard for quality management in the automotive industry, ISO/TS 16949.

ORGANISATIONS CERTIFIED UNDER THE ISO/TS 16949 WILL NEED TO TRANSIT TO IATF 16949 BEFORE

14 SEPTEMBER 2018.

IATF 16949 AT A GLANCE

IATF 16949 incorporates the structure and requirements of the quality management system standard ISO 9001:2015. Furthermore, it includes additional automotive customer-specific requirements.

THE IATF 16949 STANDARD FOCUSES ON THE FOLLOWING TOPICS

Product safety

Risk management and contingency planning

Requirements for embedded software

Change and warranty management

Management of sub-tier suppliers

RE-CERTIFICATION TIMELINE
