MAKE EVERYDAY
LIVES OF MANY
PEOPLE SAFER

... and leave a mark.

FUTURE IN YOUR HANDS

Lab Analyst (Intern)

TÜV SÜD – A global leader in the field of testing, inspection, management system certification and product certification renowned for quality, integrity and technical excellence.

We test, we certify, we audit, we advise. We never stop challenging ourselves for the safety of society and its people. We breathe technology, we strive for professional excellence, and we leave a mark.

#FUTUREINYOURHANDS

As a Lab Analyst (Intern), you will perform laboratory evaluation and analysis to ensure that products are in line with safety, security and sustainability standards. In addition, you may contribute to the validation and verification of analytical methodologies.

- Chemical analysis on industrial and consumer product samples (i.e. water treatment chemicals, paint / coating, food, pharmaceutical)
- Microbiological testing on food, pharmaceutical or water
- Physical and chemical testing on water samples
- Instrumental analysis on micro-contamination on industrial applications
- Analysis on organic compounds in various environmental samples
