

# SMART RESTART SERVICES

Safely reopen your business and operations following COVID-19 restrictions.

## WHAT ARE SMART RESTART SERVICES?

The trust of customers and employees is the foundation of a business. But living up to this trust in a pandemic presents companies with unprecedented challenges. The entire workforce must now come together to prevent a worsening of the economic situation and to protect the health of people.

At TÜV SÜD America, we understand the complexity of the tasks you face. Our smart restart services are designed to assist you in reopening your business safely, hygienically, and through building business resilience.

### BENEFITS OF SMART RESTART SERVICES:

Many years of expertise in a variety of industries including manufacturing, automotive/mobility, and more

Fast and uncomplicated help from one source

Answers to your questions on regulations and all related topics

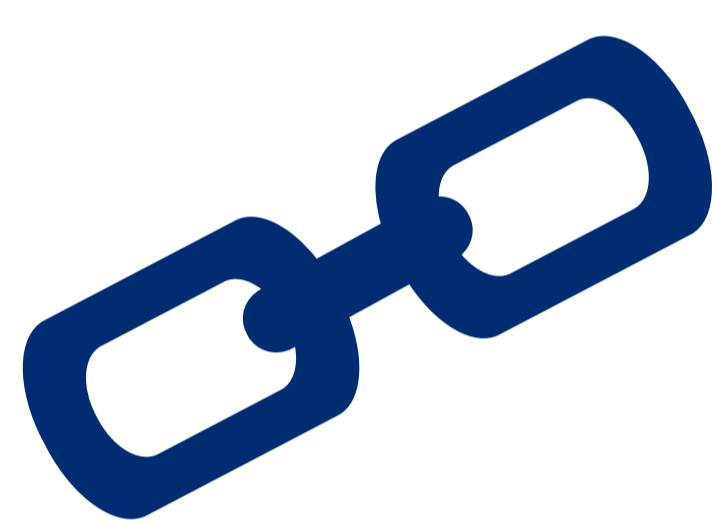

Processing of the audits and inspections in real-time

## HOW TÜV SÜD AMERICA CAN HELP YOU SAFELY REOPEN YOUR DOORS

### HYGIENE AUDITS

Implementing a comprehensive hygiene audit program allows companies to measure safe distances, establish cleaning/disinfectant processes and train employees. TÜV SÜD's certified professionals will support your ramp-up phase by carrying out COVID-19 Hygiene Audits at your business

### SUPPLY CHAIN AND BCP SERVICES

Implementing Business Continuity Planning (BCP) and 2nd Party Supplier Audits will help you build business resiliency against COVID-19 supply chain risks. Our experts are on hand with a comprehensive portfolio of services designed to meet the unique needs of your company.

### ONLINE TRAINING OPPORTUNITIES

TÜV SÜD America's Academy offers comprehensive online training opportunities to assist in your business needs. One of our newest online training programs focuses on Hygiene, ensuring that managers and employees are prepared to meet the strict safety requirements post COVID-19.

### REMOTE SERVICE OPPORTUNITIES

COVID-19 has brought about a need to implement remote and virtual testing, inspection and certification services. TÜV SÜD America works with your company to implement remote services designed to ensure safety, quality and compliance for your facilities and businesses.

## EXPERTISE TO ASSIST A MULTITUDE OF INDUSTRIES

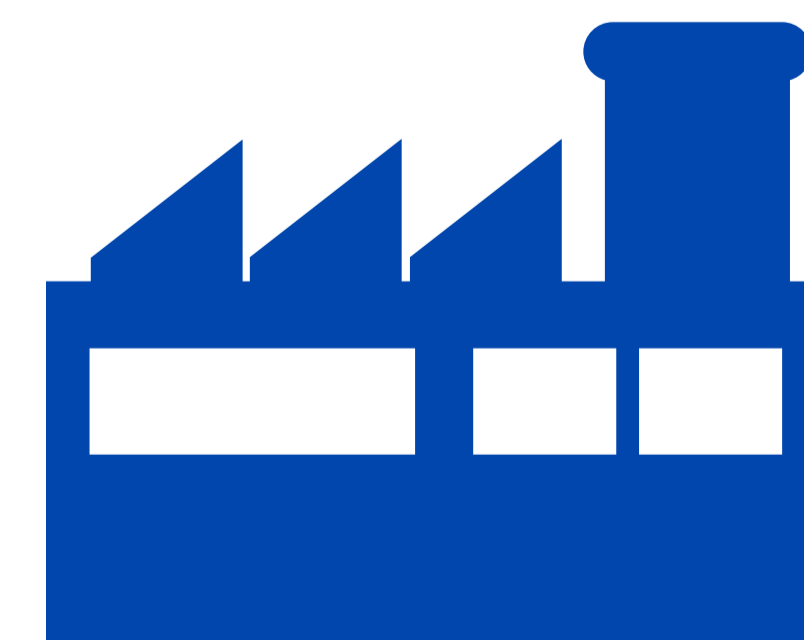

### Automotive & mobility

We help car dealerships, manufacturers, and workshops to cope with the current challenges, offer you industry solutions, and provide the necessary knowledge.

### Food & Hospitality

Protect employees, guests, and customers by implementing comprehensive hygiene practices

### Manufacturing

We help you meet the specific risk management procedures that need to be followed to ensure the safety of the facility and personnel returning to work.

### Commercial Properties

The fight against Covid-19 in your buildings demands more attention and the ability to act quicker than ever before.

### Retail

We help you restart the operation of your business by implementing measures that adhere to infection control regulations.
