

BREXIT BURDENS

Is Your Notified Body for Pressure Equipment Affected?

BREXIT UPDATES

After a series of votes and extensions, Brexit will go into effect in January of 2020.

During this transition period businesses who manufacture pressure equipment are faced with increasing doubt on the fate of their UK accredited or certified future compliance.

ADDRESSING PRESSURE EQUIPMENT DIRECTIVE CONCERNS

If your Notified Body for pressure equipment is based in the United Kingdom it may no longer be accredited in the European Union when Brexit is put into effect.

Our US-based Notified Body staff specialized in Pressure Equipment Directive 2014/68/EU (PED) can help!

If you manufacture pressure equipment that needs to meet compliance with European Directives and especially with PED and TPED regulations and you are concerned about the status of your PED Notified Body, TÜV SÜD America's Industrial Technical Inspection Services can provide up-to-date information on how to move forward.
