Corporate Subscription Plan

Invest in your most valuable assets
consistently, conveniently
and collaboratively

About Us

Driving business performance to levels of excellence in a highly dynamic and volatile business environment requires employees, the most valuable and a critical differentiating asset, to upskill, reskill and evolve continuously. From an employees' view point, most of them acknowledge the need to reskill and upskill, however, work pressures, time constraints and preferences towards technical skill building act as a hindrance in the process of continuous and balanced learning. As an L&D manager, one of your key objectives is to meet both ends; train your employees with future-ready skills by making this process convenient and collaborative.

With this need in mind, TÜV SÜD's Corporate Subscription Plan brings you a range of courses in the e-learning format to meet your organisations' training requirements. Our current corporate subscription portfolio includes training courses under quality, safety, compliance, security and behavioral & managerial verticals. With an endeavour to constantly upgrade and enhance, we aim to meet your continually evolving training needs. Delivered via a user-friendly responsive platform or with an option to upload these training courses on your existing Learning Management System (LMS), this gives you the flexibility to ensure consistency, user convenience and a single window interface for all your training needs.

Over the last two decades in India and globally for over 100 years, as a trusted training partner, we have delivered Classroom, Virtual, Hybrid and e-learning training solutions to a wide range of industries in quality, safety, security, training and sustainability space. This curated approach for corporates has been designed to meet the requirements of upskilling and reskilling of employees while giving them the convenience of any time and anywhere learning, simultaneously giving you visibility regarding the employees' training journey.

Your Benefits

User-friendly interface with our LMS

Option to upload courses on your platform

Ever expanding course offerings with periodic updations

Content curated by industry experts with global experience and local know-how
