ISO 50001:2018 Energy Management System

Your Training at
TÜV SÜD Akademie

Course Description

This Course will give you a detailed understanding of ISO 50001:2018 requirements and how to implement them. After taking a look at the evolution of the ISO 50001, this training gives you an introduction to the standard, by looking at Energy Management System (EnMS), the key issues handled by EnMS, the benefits of EnMS as well as the Annex SL. The training also focusses on the structure of the ISO 50001 as well as the requirements based on the clauses 4 to 10.

Who should attend

This course is intended for learners who wish to gain knowledge and understanding of ISO 50001 Energy Management System.

Course Objective

- You will be able to describe the ISO 50001:2018 requirements.
- You will get to know the key terms and definitions for ISO 50001:2014 Energy Management System.
