## ZDHC Wastewater Treatment Plant Operator Training - ASMEA

Your Training at  
TÜV SÜD Akademie

### Course Description

The ZDHC Foundation believes that unless wastewater treatment system operators and technicians have adequate qualifications and are properly trained, some facilities will continue to struggle in meeting the expectations of the ZDHC Wastewater Guidelines and regulatory compliance.

The intent of ZDHC WTP training is to establish standardized minimum expectations for the education, training, and experience for operators and technicians tasked with operating wastewater treatment systems at manufacturing facilities that support the footwear and apparel industries.

### Who should attend?

This e-learning course is specially designed for textile, leather, tannery and other effluent treatment plant operators to gain the necessary understanding enabling them to demonstrate that they can meet the expectations of ZDHC Guidelines and pass the exams. Created for the ASMEA market.

### Course Objective

The e-learning course consists of 12 modules and is designed as per wastewater treatment system operator qualification training curriculum suggested in the ZDHC Guideline.

### Course Contents

You will leave this course with the following key benefits:

- Understand the fundamental principles of wastewater treatment systems ,especially in the textile industry
- Demonstrate basic physical/chemical treatment as required by the ZDHC Guideline
- Enhance your skill set as a proficient water and wastewater treatment plant operator
- Manage problems that may arise during wastewater treatment

### Methodology

The e-learning course employs a variety of training tools to enhance the learning experience such as content-embedded assessment, and other interactive exercises. Easily accessible via your preferred choice of device, the course allows you to log in and learn whenever, wherever.

### Certificate

The cumulative duration of the program is 720 minutes. You will be required to pass a final assessment to receive your internationally recognized e-certificate.
