## SCC – E-Learning

Your Training at  
TÜV SÜD Akademie

### Course Description

SCC (Safety Certification for Contractors) is a health and safety management system for technical services. An important part of the SCC is the qualification of employees and managers on the topics of safety, health and the environment (SHE).

We therefore provide an e-learning course teaching you SHE standards: Based on 14 modules, you can prepare effectively for the SHE test either according to document 018 (for employees) or to document 017 (for Managers) of the SCC rules. In this timewise flexible course, you will be able to determine your own learning speed and check your progress by means of a short knowledge test at the end of each module. The individual modules are self-contained and do not have to be completed in a particular order.

### Who should attend

- SCC Training for employees: Operative employees (e.g. workers, technical service providers, personal services providers)
- or
- SCC Training for managers: Operative managers (e.g. technicians, engineers, construction managers, project managers, technical service)

### Course Objective

This course gives you an overview on the different topics of the Safety Certification for Contractors. It contains 14 modules concerning the safety and health management system for technical services.
