Notice of Continuation of Accreditation

Dear Sara,

This is to inform TUV Sud that, although your organization's current accreditation cycle for SA8000 certification expires on June 30, 2020, SAAS will extend the TUV Sud current accreditation to conduct SA8000 certification activity until such a time that a recommendation on reaccreditation is reached by the SAAS Accreditation Review Panel (ARP).

Upon completion of the reaccreditation activities and submission and review of the TUV Sud reaccreditation materials, the ARP will make a recommendation regarding the continuation of the TUV Sud accreditation by SAAS to perform SA8000 audits, whereupon a final decision will be issued.

Should you have any questions or wish to discuss this further, please do not hesitate to call or email.

Sincerely,

John Brookes
Executive Director
