PCI Security Awareness E-Learning

Course Description

PCI Security Awareness Training is an e-learning course, which corresponds to Requirement 12.6 of the PCI Data Security Standard (PCI DSS).

The objectives of the course:

- Compliance with PCI DSS Requirement 12.6 for security awareness
- Application of PCI DSS security policies in the enterprise
- General understanding of PCI compliance through practical insights
- Cost reduction through e-learning
- Collection of training points for PCI controls

Who will benefit

The training was designed for employees, including managers, who work in organizations that must adhere to the PCI DSS. The objective is to increase the security awareness of the employees. This will help organizations improve their security and reduce the risk of cardholder misuse.

Everyone can benefit from the training. No special PCI knowledge is required.

Course agenda

- Credit card payment
- PCI DSS
- Security Controls

Methodology

The course employs a variety of training tools such as content-embedded assessment, simulations, and other interactive exercises to enhance instructional delivery. Easily accessible via your preferred choice of device, the course allows you to log in and learn whenever, wherever.
