

# AS/EN 9100 audit transfer to TÜV SÜD\*

TÜV SÜD is accredited to work within the aviation, space and defence (ASD) Industry's Controlled Other Party-ICOP scheme, in addition to ISO/IEC 17021-1 requirements for the 9100-series of Aerospace Quality Management System (AQMS) standards. Our worldwide network enables us to certify your organisation's compliance with AS/EN 9100 on a global scale, following the highest degree of professionalism and conformance to international guidelines and standards.

TÜV SÜD's certifications are among the most highly recognised and reputed worldwide. Transferring your AS/EN 9100 audits to TÜV SÜD will help your organisation gain and maintain the confidence of major ASD suppliers and manufacturers. Customers with valid AS/EN 9100 certificates can transfer to TÜV SÜD if they are not approaching the scheduled surveillance or re-certification audit.

## ENSURE THAT ALL CRITERIA ARE MET FOR A SUCCESSFUL TRANSFER AUDIT:

## WHY CHOOSE TÜV SÜD?

Every organisation working in the ASD industry must demonstrate its commitment to quality and reliability. TÜV SÜD is the preferred service provider for many major aircraft and equipment manufacturers across the world. As we act as a quality management partner for our ASD industry customers, we help them to ensure manufacturing processes exceed the highest standards. Our value-added audits will enhance your organisation's market access and deliver business success across the supply chain.
