## ISO 45001 – E-Learning

Your Training at  
TÜV SÜD Akademie

### Course Description

ISO 45001 is developed for professionals who wish to have a role in implementing and/or auditing Occupational Health and Safety Management Systems (OHSAS).

You will be introduced to the basics of an OH&S management system —from understanding the concepts and benefits, to the key requirements of the standard. You will get an in-depth overview of each aspect from the OH&S Management system via the modular course design.

Gain insights into how you can conduct internal audits to improve your organisation's OH&S performance with the intent to prevent work related injury and ill health, fulfil compliance obligations and maintain a safe and healthy workplace.
