ISO 14001:2015 Environmental Management System (EMS) Awareness E-Learning

Course Description

When you need to get ahead in your career, earning a new qualification is key. Discover how you can level up your competency with TÜV SÜD's latest e-learning offering. Introducing ISO 14001:2015 Environmental Management System (EMS) Awareness Course.

Conceptualised for today's busy professionals, this course introduces you to the basics of setting up an EMS—from understanding the areas of commitment of your top management, to learning how to implement a life cycle perspective.

Get up to speed on the essential requirements of an environmental policy, and what factors you should consider when documenting information required by the standard. With this course, you will gain an in-depth knowledge of EMS—at the convenience of self-paced learning and with the same meticulous standards applied in a classroom set-up.

Course Objective

In this course, you will have an overview of the scope of EMS and the step-by-step process to successfully set up an EMS. You will also discover the risks that affect compliance, roles of your top management in running an EMS, and scope of performance evaluation.

Course contents

Topics to be covered in this course include:

- Evolution of ISO 14001 Standard
- Introduction to EMS
- Structure of ISO 14001:2015
- Context of the Organisation
